

Make-Up Opportunities

From time to time, requests are made for students to make-up credits by means of summer school, tutoring or correspondence courses. NO CREDIT will be given to any course taken by the above means unless prior approval has been given and certain standards have been satisfied as established by the high school administration.

Academic work, including make-up, takes precedence over all other activities. Participation in school sponsored activities is contingent on prompt make-up of any work missed.

No credit will be given for summer school, tutoring, or correspondence courses unless prior approval from the appropriate principal has been obtained.
