

## **Student Awards and Scholarships**

Local scholarships and loans are an important source of financial aid. They are awarded at graduation. In general, these awards are based on the following factors: scholastic ability, character and citizenship, school service and leadership, need, and promise of success in the chosen field.

A scholarship booklet, explaining and describing local scholarship and loan requirements is available in the guidance office for members of the graduating class wishing to further their education.

During Commencement Week at Class Night or during the Awards Banquet, students (graduates and undergraduates) will receive awards for excellence and/or achievement in a number of areas. A list of awards is available in the guidance office.
